

BadgePass Server™

Secure Integrated Platform

BadgePass is a fully integrated suite of products that includes Identity Manager, Visitor Manager and Access Manager. BadgePass Server software offers you the foundation and flexibility to integrate with your existing database information while adding any or all of these additional security applications in one easy-to-use interface. The powerful synchronization tools and real-time event messaging allow you to create a world in which one identity works with many applications.

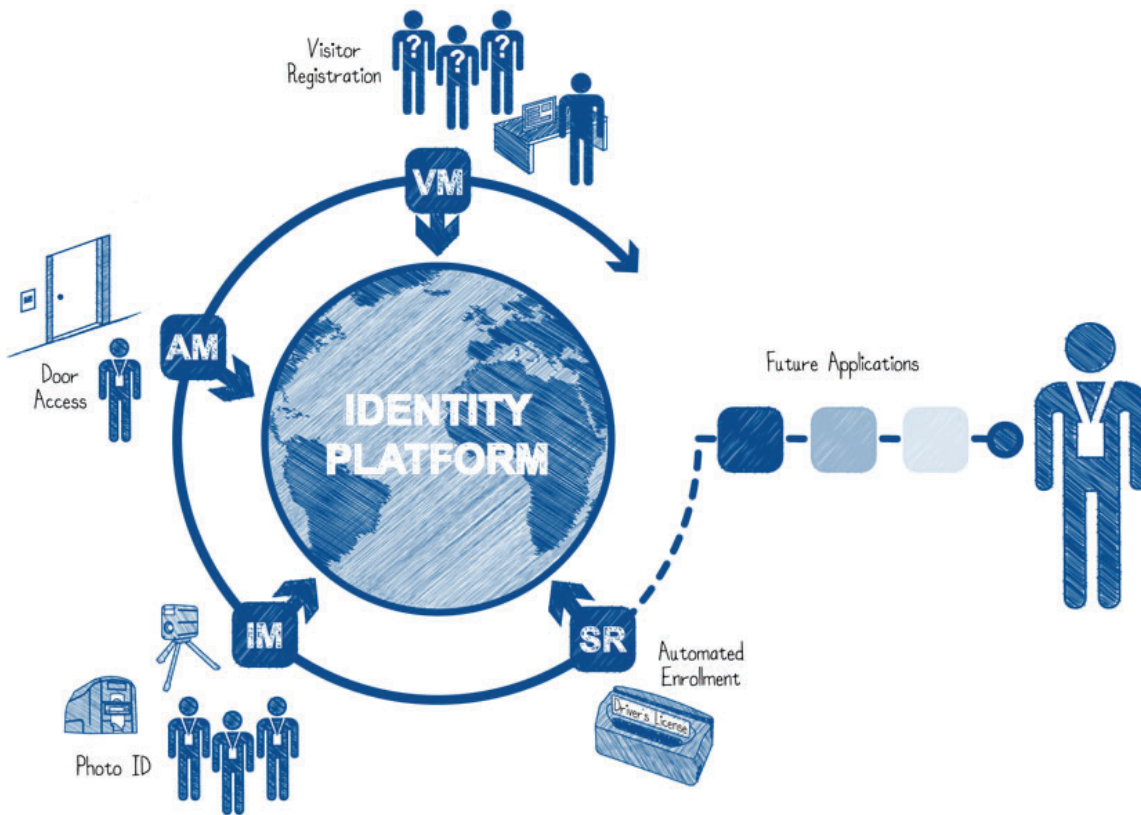

Identity Manager™

Access Manager™

Visitor Manager™
