DATACARD® IDCENTRE™ BRONZE IDENTIFICATION SOFTWARE

IDCentre Bronze identification software offers a smooth migration path to the Silver and Gold editions, so you can take advantage of more advanced features at any time.

Basic features for start-up ID programs

Datacard® IDCentre™ Bronze identification software includes everything you need to create and maintain a start-up ID program. This easy-to-use package offers intuitive, versatile tools for designing ID cards and reports, as well as flexible capabilities for card creation, image handling, database creation and program administration.

User-friendly software, productive capabilities

- Create dynamic card designs using shape drawing, wrapped text and photos with border, ghost and transparent background options.
- Restrict project access by user and create secure user audit trails.
- Retrieve and incorporate information from a Microsoft® Access database, encode magnetic stripes and print bar codes.
- Leverage the functionality of IDCentre software by integrating it with a Datacard® CD800™ or CP Plus Series card printer.
- Use the Datacard® IDCentre™ View software for view-only access to your database, which makes it easy to add visual verification checkpoints.
