DATACARD® IDCENTRE™ GOLD IDENTIFICATION SOFTWARE
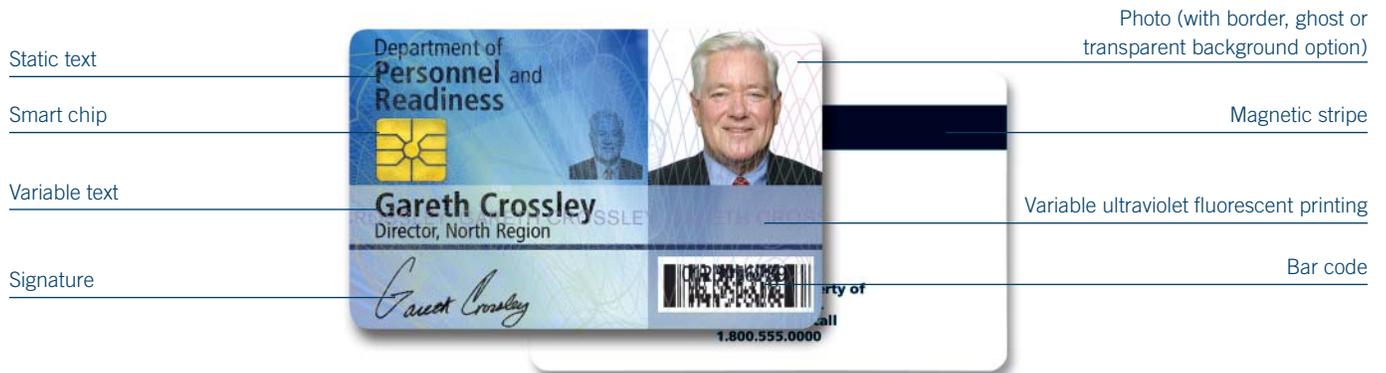

IDCentre Gold edition software is the ultimate package in card design and production, featuring education plug-ins for more advanced programs.

Complete ID program solutions

Datacard® IDCentre™ Gold identification software is the ideal choice for today's most sophisticated ID programs. Separate packages for design and production, combined with smart card capabilities, create one of the most powerful and complete ID program solutions available. This modular platform enables you to maintain total control over all the cards, reports and forms in your program.

Advanced features for sophisticated ID cards

• Datacard® IDCentre™ Gold Production software makes it easy to enter and retrieve data, capture images and print cards and reports using an intuitive interface.

• Datacard® IDCentre™ Gold Designer software allows you to customize the look of cards, reports and production forms, as well as connect forms to ODBC-compliant, multiple-table databases.

• Gold Designer software enables access to ID information stored in a directory service via the LDAP.

• Plug-ins for SASI and Lifetouch allow you to import and export images directly from these image management applications.

With separate packages for card design and production, IDCentre Gold software allows you to distribute workflow effectively in your secure ID card programs.

Standard Features

User-defined card size (CR50, CR80, custom)
Auto-create production form
Shape drawing support
Flexible font sizing and colors
Multiple field selection, alignment and formatting
Copy card and report designs between projects
Variable text fields with masking and static text fields with word wrap option
Fields for date, non-printable area, list, composite, print count, auto sequence, bar codes (22 types), magnetic stripes, signature, smart card, binary field and event button
Photo with border, ghost or transparent background options
Static and variable graphic fields (with ghost and transparent color options)
In-production image import and export (.BMP, .EPS, .JPG, .PCT, .PCX, .PNG, .PSD, .TGA, .TIF, .WMF)
Image and signature storage as BLOBs or files
Multiple images per record
Quick, advanced and stored searches
Crop and adjust existing photo
Batch import/export photos and images from production
Data-driven production
Supports multiple-table databases
Supports Software Developer's Kit
Proximity card plug-in for smart cards
Education Support Pack (SASI and Lifetouch plug-in)
Auto-create Microsoft® Access 2000 database; databases
supported include Microsoft Access 2000 or later;
Microsoft® SQL Server 2000 and 2005; Oracle® 8*i*, 9*i* and
Oracle 10*g*®; IBM® DB2® Universal Server 7.1 and 8.1
LDAP-compliant directory services (such as Microsoft
Active Directory® service)
Wizard for managing user account privileges

Retrieve records from "today"
Retrieve records from "this week"
Online user's guide, online help and help desk support
USB hardware security key
Application- or activity-level user security
Login timeout feature
Restrict project access by user
Secure user audit trail
Enhanced user password security
Expiration of password after user-defined number of days
Compatible with Datacard® CD800™ or CP Plus Series card printers

Image capture options

File input
Datacard® Signature Pointe™ solution
Datacard® Visitor Pointe™ solution
TWAIN and Video for Windows capture devices
Datacard Capture Plug-in Tool

System requirements

Microsoft Windows 2000, XP (32 or 64 bit), Windows Vista (32 or 64 bit), and Windows 7 (32 or 64 bit) operating systems
Microsoft® Internet Explorer Web browser (v6.0 or later)
512 MB RAM
100 MB hard disk space for application
(not including database)
16-bit color/65,536 colors
(some cameras may require higher color)
800 x 600 screen resolution (1024 x 768 recommended)
CD-ROM drive
Available USB port
