

# Mobile Command Case

*Easily transport your Command Center to any location and operate with little to no preparation!*

## Managing People and Assets On-site

The Mobile Command Cases are a turn-key solution packaged as a compact, self contained workstation that manages people and assets at any location using Mobile Solutions software. The Mobile Command Case is designed to quickly be transported to any location and setup with little to no preparation. **Just lift the lid, power up and you're ready to go!**

These workstations is an integrated solution used to track personnel and assets, issue credentials and manage information onsite at any location. The durable, water tight casing can house an integrated command workstation, badging system, cable management, mobile tracking devices and badging supplies and protects the equipment from atmospheric hazards.

## Features

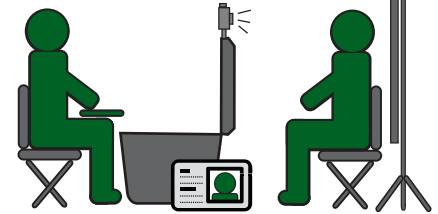

- Available as a standard and mini command case.
- Cable management results in little to no preparation.
- A mobile, compact solution makes it easy to transport and store each unit for quick access.
- Each command workstation is protected by a durable, water tight case making it suitable for outdoor use.
- Integration of PIV solutions.
- Track people and assets away from the command workstation with wireless connectivity using Mobile Tracking Devices.
- Wireless router.
- Ethernet hub optional.

**Easily transport  
to any location!**

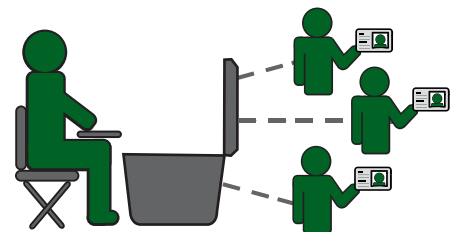

## Customization

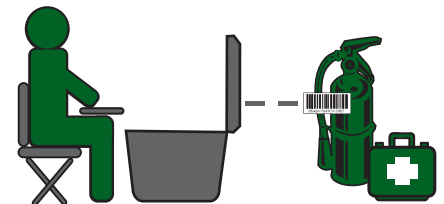

The Mobile Badging Units are a customizable solution that allows customers to choose from a variety of components integrated into their unit including printer, ID software, and capture solutions. Mobile Badging Units can accommodate existing Datacard ID Badging Systems that include a CP40, CP60 or CP80 Plus Series printer depending on the unit size. Pricing is based on the unique configuration of each unit.
